Statement of Public Notice
Section 1115(a) Renewal of Hawaii's Section 1115 Demonstration

The State of Hawaii, Department of Human Services (the State), hereby notifies the public that it intends to seek a five-year renewal of its Section 1115 demonstration project from the Centers for Medicare & Medicaid Services (CMS). The State expects the current demonstration to expire on December 31, 2013. The State is providing this abbreviated notice pursuant to CMS requirements in 42 C.F.R. §431.408(a)(2)(ii).

Originally implemented as the QUEST program in 1994, QUEST Expanded is the current version of Hawaii's demonstration project to provide comprehensive benefits to its Medicaid enrollees through competitive managed care delivery systems. The demonstration covers Medicaid expansion populations through a variety of programs known as QUEST, QUEST-Net, and QUEST-ACE. The demonstration also covers aged, blind, or disabled Medicaid beneficiaries, including the provision of long-term supports and services, through the QUEST Expanded Access (QExA) program.

Under the "QUEST Integration" renewal, Hawaii seeks to continue to deliver services through managed care, while integrating the demonstration's programs and benefits to create a more patient-centered care delivery system and to align the demonstration with the Affordable Care Act's (ACA) new requirements. The State will eliminate all eligibility enrollment caps, and streamline its programs by consolidating the current programs under QUEST Integration. All eligible beneficiaries will be enrolled under QUEST Integration, and access to services will be based on clinical criteria and medical necessity.

Other initiatives in the proposed renewal include:

- Incorporating the new simplified Medicaid eligibility structure, the modified adjusted gross income eligibility methodology, and other changes in ACA.
- Offering new services to beneficiaries, including a home and community-based services (HCBS) benefit to individuals who are assessed to be at risk of deteriorating to an institutional level of care (the "at risk" population).
- Expanding coverage of behavioral health services.
- Preparing for integration of care for Medicaid and Medicare enrollees.
- Modifying the health plan enrollment process.
- Covering certain Medicaid expansion populations.
- Expanding the qualified provider network to increase access to substance abuse treatment services.
- Modifying retroactive coverage.
- Changing the payment process when hospice care is furnished to individuals residing in nursing facilities.
- Eliminating the QUEST-ACE enrollment benchmarks for purposes of claiming federal financial participation in uncompensated care costs.

The draft renewal application and the State's full public notice, which describe the demonstration and the proposed renewal in more detail, can be found at <http://www.med->

quest.us/ and http://hawaii.gov/dhs/main/har/proposed_rules/. Hard copies are available for review at the Department of Human Services, Med-QUEST, Policy and Program Development Office at 601 Kamokila Blvd., Room 518, Kapolei, HI 96707.

The State will hold two public hearings to solicit comments from interested parties on the proposed renewal:
